## **GENERAL INFORMATION**

### A. Overview

The Greenfield Fire District is soliciting proposals for seal coating/stripping various fire district parking lots.

#### **The objective of the proposed project is to:**

1. Repair and seal coat the parking lots to extend the life of the asphalt.

### B. Purpose

The purpose of this proposal is to contract for the seal coating and re-stripping of three parking lots.

#### **Locations are as follows:**

- ❖ Middle Grove Fire Company #3, 25 North Creek Road, Middle Grove NY 12850 –Striping of entire parking lot, along with apron of parking lot and in front of truck bay doors to road as well as going into truck bays.
- ❖ Greenfield Fire Company #1 – Seal/Stripe – apron of parking lot in front of truck bay doors to road, front of the building near flag pole / mail box, and out to the back of firehouse which is to include the parking area all around the district office
- ❖ Porter Corners Fire Company #2, 405 Bockes Road, Porter Corners NY 12859 – Seal/Stripe – apron of parking lot in front of truck bay doors to road, extending to front of pole barn to road.

All vendors supplying prices shall be established vendors whose business has experience in sealcoating/paving. Selected vendor shall supply the Greenfield Fire District with a certificate of insurance (COI) prior to start of job.

## **SCOPE OF SERVICES REQUIRED**

This project is open for all professional inspections to conduct a detailed analysis that will identify all visible components required for this project.

Provide all materials, labor, tools, equipment and supervision required to repair and seal coat the above areas.

### **SEAL COAT SURFACE TREATMENT**

#### 1. **MATERIALS:**

- A. Hot tar crack filler applied to all cracks up to ¾ “
- B. Material to be used are to be stipulated in bid
- C. Re-Striping of parking lots, to include handicap areas. Handicap areas are to be ADA compliant done in regulation blue.

2. **CONSTRUCTION METHOD:** The areas to be treated shall be cleaned of dirt and/or other debris by power blowing to ensure maximum adhesion prior to placing sealer. Surfaces adjacent to the grass shall be power edged. Coal Tar Sealer to be applied by use of a spray/squeegee machine method and/or manually for the entire surface site. Sealer is to be applied by hand near any obstacle to provide a meticulous finish. Pavement markings are to be mirrored to match existing parking spaces in parking lots, existing paint striping is to be removed prior to re-stripping, not painted over in black then re-striped.

3. **PAYMENT:** Payment for work will be on a NET/ 30 basis once invoice from company is provided.

4. **WORK REQUIRED TO BEGIN/COMPLETED:** On or before 7/1/2018 to be completed no later than 8/1/2018

5. **POINT OF CONTACT:** Jill Chouinard - Director of Purchasing, 518-893-0723 X2, or by email at Jchouinard@greenfieldfd.org
