## Future Plan Committee Meeting Agenda October 18, 2010 Middle Grove Co #3

### Background:

The GFD began an initiative in the late 80s to begin building new firehouses. This initiative concluded with the construction of the Greenfield Center firehouse built in 2000. While the district facilities have required standard upkeep over the years, a great many design and planning deficiencies have produced complex issues that are not easily (or cheaply) remedied. Many argue that we must begin planning now for the replacement of these facilities so that when the time comes for their replacement or remodeling, that the money is available, rather than raising taxes or bonding (borrowing) the money.
